**WATERPROOFING
SOLUTIONS**

GOEDECKE

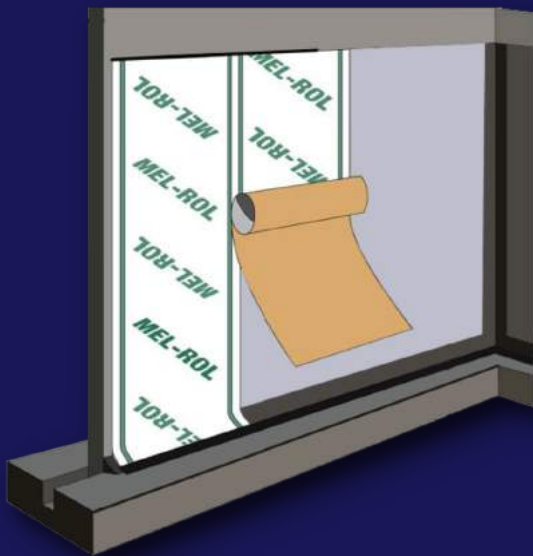

PRODUCT OF THE MONTH

W. R. MEADOWS.

SEALTIGHT.

MEL-ROL

Rolled, Self-Adhering
Waterproofing Membrane

MEL-ROL FEATURES

MULTIPLE APPLICATION TYPES

VERTICAL / HORIZONTAL

Foundations, Vertical Walls, and Below-Grade
Floors in Residential and Commercial Construction

EXACT PLACEMENT

PEEL AND STICK

Mel-Rol has a delineated overlap area ensuring
the overlap is the correct 2.5"

LOCAL MANUFACTURING

W.R. MEADOWS

Mel-Rol is manufactured approx. 300 miles from
St. Louis so all local jobs that require LEED credit
qualify for the Regional Materials LEED credit.

MEL-ROL FEATURES

SAVES APPLICATION TIME

MORE COVERAGE

38.5" X 62.5' (200 sf) Roll – every vertical “strip” the contractor is covering 2.5” more wall space than the competitors

ACCURATE MATERIAL MATCH

PRECISE INSTALLATION

Mel-Rol has a “membrane to membrane” overlap rather than “membrane to backing material”

LOW-TEMP VERSIONS AVAILABLE

LOW-TEMP SYSTEMS

Low-Temp (20°F -40°F) and also an Extra-Low Temp (0°F -20°F) available if application is required during low temps
